LT Environmental Announcement

Denver, Colo. — LT Environmental (LTE) (<http://ltenv.com>), a full-service environmental engineering company specializing in compliance, engineering and remediation for private and government clients, has announced the hiring of Rob Fishburn, Geologist/Hydrogeologist, as office manager of LTE's Rifle Colorado office. Mr. Fishburn has 15 years experience in project management; natural gas gathering and processing; underground storage tank, pipeline, terminal and refinery project support; soil and groundwater assessment; remediation; emergency response; and regulatory compliance.

The LTE office in Rifle serves clients on the Colorado Western Slope. Staff members provide extensive expertise in soil and groundwater assessment and remediation; and stormwater inspections, plan preparation, and construction management. Mr. Fishburn can be reached at 970-285-9985.

About LT Environmental:

LT Environmental is a full-service environmental engineering company specializing in compliance, engineering and remediation for contaminated properties. LTE is headquartered in Denver, CO, with additional offices in Durango and Rifle, CO; Cheyenne, WY, and Gainesville, FL. LTE helps clients throughout the United States identify and eliminate environmental liabilities. Compliance services offered by LTE include preparation of permits and plans, environmental auditing, and database development and maintenance. For more information about LTE please visit www.ltenv.com or call (303) 433-9788.
