### ***FOR IMMEDIATE RELEASE***

#### **LT Environmental Creates Air Quality Department**

**Denver, Colo.** — LT Environmental (LTE), a Denver environmental engineering firm, has announced the creation of an Air Quality Department. Barry D. Andrews, P.E. has been hired to lead the department which will be based in Fort Collins, Colo. Additional staff located at the Fort Collins office includes two remediation system construction managers to provide construction and oversight of several remediation systems in northeast Colorado and Wyoming.

“We are excited to add air quality engineering to our range of services, which already includes remediation for structures, soil, groundwater and wastewater,” said LTE president Lisa Negri. “Barry has the knowledge and experience to grow our air quality capabilities and provide top notch service to our clients, especially in the oil and gas industry.”

LTE will provide air quality services to existing clients, and will seek new business opportunities based on the air quality department’s competencies.

Andrews has 30 years of experience in air quality engineering. He most recently served as a Senior Air Quality Engineer for SECOR International, Inc. in Fort Collins working on operating and Title V permits for the oil and gas industry.

Contact information for the new office:

155 E. Boardwalk, Suite 300,  
Fort Collins, CO 80525  
Phone: 970-232-3076  
Fax: 970-232-3101

### **About LT Environmental:**

LT Environmental is a full-service environmental engineering company specializing in compliance, engineering and remediation for contaminated properties. Headquartered in Denver, CO with additional offices in Cheyenne, WY, Fort Collins, CO and Gainesville, FL. LTE helps clients throughout the United States identify and eliminate environmental liabilities. Compliance services offered by LTE include preparation of permits and plans,

environmental auditing, and database development and maintenance. For more information about LTE please visit [www.ltenv.com](http://www.ltenv.com) or call (303) 433-9788.
