FOR IMMEDIATE RELEASE

LT Environmental Opens Four Corners Office

Denver, Colo. — LT Environmental, Inc. (LTE), a Colorado-based environmental engineering consultant to the oil and gas industry, has announced the opening of an office in the Four Corners region of Colorado. The new office will service existing clients in Durango, Colorado and Farmington, New Mexico.

“We are excited to expand our presence into the Four Corners region,” said LTE president Lisa Negri. “This new office will enable us to provide a higher level of service to our oil and gas clients in that area.”

Kyle Siesser, a geologist with over seven years of experience, will be the new office manager. Kyle’s experience includes coal bed methane surveys and studies, methane mitigation for residential structures, groundwater assessments, hydrocarbon-impacted UST site investigations, and cleanups and remediation implementation in the Durango/Farmington area.

Contact information for the new office:

17 W. Mill Street, Suite 213
Bayfield, CO 81122
Phone: 970-764-7356

About LT Environmental:

LT Environmental is a full-service environmental engineering company specializing in compliance, engineering and remediation for contaminated properties. LTE is headquartered in Denver, CO, with additional offices in Bayfield, CO, Cheyenne, WY, Fort Collins, CO and Gainesville, FL. LTE helps clients throughout the United States identify and eliminate environmental liabilities. Compliance services offered by LTE include preparation of permits and plans, environmental auditing, and database development and maintenance. For more information about LTE please visit www.ltenv.com or call (303) 433-9788.
