FOR IMMEDIATE RELEASE

LT Environmental Names Five Appointees to its Headquarters

Denver, Colo. — LT Environmental (LTE), a Denver environmental engineering firm, has announced five new personnel changes at its headquarters. Karen Lim, Jim Short and Chris Shephard have been promoted to group managers; Steve Kahn, P.E., has been named to the firm's executive leadership team; and John Brown has been hired as an environmental scientist.

Lim, Short, and Shephard will lead teams of 15 technical personnel, engineers and scientists. Lim is responsible for the management of the storm water control for LTE. Her duties include developing storm water management plans and conducting on-site inspections at oil and gas exploration areas across Colorado. Khan currently serves as client manger for Sinclair Oil and Noble Energy. Brown will head the implementation of the LTE TerraCert process at brownfield sites across the United States.

For more information about LTE please visit www.ltenv.com or call (303) 433-9788.

About LT Environmental:

LT Environmental is a full-service environmental engineering company specializing in compliance, engineering and remediation for contaminated properties. Headquartered in Denver, CO with additional offices in Cheyenne, WY and Gainesville, FL. LTE helps clients throughout the United States identify and eliminate environmental liabilities. Compliance services offered by LTE include preparation of permits and plans, environmental auditing, and database development and maintenance.
